Mo'orea Surf Tourism

Opinions from local Mo'orea surfers, residents, and businesses about surf tourism development on Mo'orea

Interviews will be taken of locals and responses to interview questions will be transcribed during the interview.

Themes consistent throughout interviews will be the metadata that accompany the interview transcriptions.

This study acknowledges the negative effects that parachute science has on local communities. This study is designed to promote the utmost local involvement and to give locals control of their own destiny in regards to surf tourism development. All major decisions will be made by locals. The study just acts as a method of facilitating conversations about sustainable surf tourism development on Mo'orea.

N/A

Data will be documented using google docs and saved to icloud.

I will be the sole accessor of this data, so security will not be an issue.

Themes garnered from the multitude of interviews will be important data for the long term planning and management of the Mo'orea surf tourism industry.

Publish it publicly and assure that Mo'orea locals have access to it.

Data will be publicly accessible online, and data will be manually shared with all participants in the study.

No

Myself as the data collector.

Access to data management platforms through UC Berkeley
