Intentional Foods Capstone

A spreadsheet will be created that can pull the price of ingredients from invoices and determine the real price of products.

The data will be pulled from invoices.

This document will be produced with excel and the data will come from invoices and vender notes.

The invoices will provided by the owner of the restaurant who has given them to us.

The data will be provided by the owner of the restaurant.

The data will be stored on the cloud via excel.

The spreadsheet will only be shared to approved reciprecants.

The data will be kept for a long time in excel.

The data will be kept in a excel.

The data will be shared via excels sharing capability.

There are no restrictions on data sharing required.

All members of the team are responsible for data management.

The resources required for this plan are invoices, a good internet connection, a computer, and excel.
