The above plan creator(s) have agreed that others may use as much of the text of this plan as they would like in their own plans, and customize it as necessary. You do not need to credit the creator(s) as the source of the language used, but using any of the plan's text does not imply that the creator(s) endorse, or have any relationship to, your project or proposal.
Promotion of Creativity in High School Students

Data generated by the project

This project will be using qualitative surveys of students in three highschool classes. The data will be anonymized and stored on a local machine.

Period of data retention

This data will be kept for a period of no longer than 10 years. The investigators will have sole access to the data for a period of one year.

Data format and dissemination

The data will be stored in CSV format and analyzed using SPSS. The Metadata will be in XML format and will be created expressly for this project. The metadata codebook will be necessary to make sense of the dataset.

Data storage and preservation of access

The data will be stored in CSV format on the local machines of the investigators.

Additional possible data management requirements

Question not answered.
