# West Point Museum Research Data

*A Data management plan created using the DMPTool*

Creator(s): Brian Rayca

Affiliation: Johns Hopkins University

Last modified: November 10, 2016

Copyright information: The above plan creator(s) have agreed that others may use as much of the text of this plan as they would like in their own plans, and customize it as necessary. You do not need to credit the creators as the source of the language used, but using any of their plan's text does not imply that the creator(s) endorse, or have any relationship to, your project or proposal.

# West Point Museum Research Data

---

## **Types of data produced**

The West Point Museum is going to be producing between 10TB and 14TB of data. These files will consist of Tif archive images as well as PDFa scans of the Registrars archive.

## **Data and metadata standards**

The Metadata will be MARC in order to be crosswalked to ContentDM for publishing online.

## **Policies for access and sharing**

The data could be made available publically immediately with the credit line "From the Collections of the West Point Museum." The Registrar's Archive can be made available within a year of ingest with the caveat that all Personally Identifiable Information be excluded.

## **Policies for reuse, redistribution, and derivatives**

## **Plans for archiving and preservation**

## **Justification for the restriction of data**
