You do not need to credit the creator(s) as the source of the language used, but using any of the plan's text does not imply that the creator(s) endorse, or have any relationship to, your project or proposal.
INFLUENCE OF SOCIAL CAPITAL ON ORAL HEALTH CONDITIONS OF CHILDREN

Data Collection

What data will you collect or create?

- Demographic, socioeconomic and behavioral factors;
- Individual and contextual social capital;
- Oral conditions (dental caries and gingival bleeding);
- Data on contextual social capital will be obtained by the city official publication.

How will the data be collected or created?

Oral health data will be collected through clinical examinations performed by previously trained and calibrated examiners. Demographic, socioeconomic and behavioral factors were assessed at baseline and will also be obtained during follow-up through a semi-structured questionnaire applied to parents/guardians of schoolchildren.

All data will be added to an excel worksheet and then transferred to Stata Software.

Documentation and Metadata

What documentation and metadata will accompany the data?

We collected data of preschool children related to OHRQoL, clinical conditions and social capital in 2010. All this variables will be collected during the followup in 2020 and 2021. Data is codified in numbers with the respective subtitles in an excel worksheet.

metadata: title, author, keywords according to the Dublin core specification

Ethics and Legal Compliance

How will you manage any ethical issues?
This project was approved by the Research Ethics Committee (REC) of the Federal University of Santa Maria (protocol CAAE 11765419.1.0000.5346).

How will you manage copyright and Intellectual Property Rights (IP/IPR) issues?

Data will be available by author permission

Storage and Backup

How will the data be stored and backed up during the research?

Data will be stored at a personal computer and will be backed up every 6 month.

How will you manage access and security?

Question not answered.

Selection and Preservation

Which data are of long-term value and should be retained, shared, and/or preserved?

Question not answered.

What is the long-term preservation plan for the dataset?

Question not answered.

Data Sharing

How will you share the data?

The data of this research project will be shared by online request.

Are any restrictions on data sharing required?

No restrictions after permission

Responsibilities and Resources
Who will be responsible for data management?

the authors will be responsible for data management

What resources will you require to deliver your plan?

Question not answered.
