Plan Overview

*A Data Management Plan created using DMPTool*

**DMP ID:** [https://doi.org/10.48321/D1F88S](https://doi.org/10.48321/D1F88S)

**Title:** Moorea Biocode

**Creator:** Neil Davies - ORCID: [0000-0001-8085-5014](https://orcid.org/0000-0001-8085-5014)

**Affiliation:** University of California, Berkeley (UCB) (berkeley.edu)

**Principal Investigator:** Neil Davies, Chris Meyer, George Roderick, Serge Planes, Jean-Yves Meyer, Claude Payri, Gustav Paulay, Richard Pyle, Sylvain Charlat, Craig Moritz, Matteo Garbelotto, Olivier Gargominy, Brent Mishler, Len Hirsch

**Data Manager:** John Deck, Joyce Gross

**Funder:** Gordon and Betty Moore Foundation (GBMF) (moore.org)

**Funding opportunity number:** GBMF1619

**Grant:** [https://www.moore.org/grant-detail?grantId=GBMF1619](https://www.moore.org/grant-detail?grantId=GBMF1619)

**Template:** Gump South Pacific Research Station

**Project abstract:**

The core goal of the Moorea Biocode Project (MBP) is to genetically barcode every non-microbial species on Moorea. We will thus create a professionally produced, verifiable (vouchered) All Taxa Biotic Inventory (ATBI) of Moorea (Output 1), together with the informatics services needed for ATBI and biocode-enabled research in Model Ecosystems (Outcome 2). We will also design a long-term plan (business model) to ensure the financial self-sustainability of biocode services, and carry out proof of concept studies to encourage broad-
based support from funding agencies (Output 3).

Start date: 11-21-2007

End date: 03-30-2010

Last modified: 04-21-2023

You do not need to credit the creator(s) as the source of the language used, but using any of the plan's text does not imply that the creator(s) endorse, or have any relationship to, your project or proposal.
Moorea Biocode

Methodology

How will data be collected or produced?

n/a

Access, Data Sharing and Reuse

Will you require an embargo period prior to making your data available? If requested, an embargo period may be granted for up to [1 year] after the end date of the Project as specified in its Data Management Plan.

- Yes

n/a

Do you agree to share all data contributed to the Data Trust under the CC-0 license?

- No

Will your project include the collection of material samples? For example, archeological, geochemical (geosamples), and biological (biosamples) materials.

- Yes

Documentation and Metadata

What documentation and metadata will accompany the data?

n/a

Ethics and Intellectual Property

How will you manage copyright and Intellectual Property Rights (IP/IPR) issues? Demonstrate that you have sought advice on and addressed all copyright and rights management issues that apply to the resource.
How will you handle sensitive data? Make explicit mention of consent, confidentiality, anonymization, and other ethical considerations, where appropriate.

Are any restrictions on data sharing required – for example, to safeguard research participants or to gain appropriate intellectual property protection?

Describe restrictions on data sharing required due to privacy or IP protection.

Selection and Preservation

Which data are of long-term value and should be retained, shared, and/or preserved?
