

## Plan Overview

---

*A Data Management Plan created using DMPTool*

**DMP ID:** <https://doi.org/10.48321/D1NP5N>

**Title:** Testing DMP integration

**Creator:** Operations ResearchSpace - **ORCID:** [0000-0002-9561-5942](https://orcid.org/0000-0002-9561-5942)

**Affiliation:** ResearchSpace

**Contributor:** Richard Adams

**Funder:** ResearchSpace

**Funding opportunity number:** 123

**Template:** Digital Curation Centre

**Project abstract:**

Testing integration with DMP for conference in September

**Start date:** 09-09-2021

**End date:** 09-22-2021

**Last modified:** 12-07-2023

**Copyright information:**

The above plan creator(s) have agreed that others may use as much of the text of this plan as they would like in their own plans, and customize it as necessary. You do not need to credit the

creator(s) as the source of the language used, but using any of the plan's text does not imply that the creator(s) endorse, or have any relationship to, your project or proposal

---

## Testing DMP integration

### Data Collection

---

**What data will you collect or create?**

Not a lot

**How will the data be collected or created?**

via API calls

### Documentation and Metadata

---

**What documentation and metadata will accompany the data?**

fdgfdgdg

### Ethics and Legal Compliance

---

**How will you manage any ethical issues?**

not at all

**How will you manage copyright and Intellectual Property Rights (IP/IPR) issues?**

carefully

### Storage and Backup

---

**How will the data be stored and backed up during the research?**

AWS

**How will you manage access and security?**

carefully

## Selection and Preservation

---

**Which data are of long-term value and should be retained, shared, and/or preserved?**

none

**What is the long-term preservation plan for the dataset?**

destroyed

## Data Sharing

---

**How will you share the data?**

I won't

**Are any restrictions on data sharing required?**

acknowledged long-term value should be made available. The methods used to share data will be dependent on a number of factors such as the type, size, complexity and sensitivity of data. If possible, mention earlier examples to show a track record of effective data sharing. Consider how people might acknowledge the reuse of your data.

## Responsibilities and Resources

---

**Who will be responsible for data management?**

acknowledged long-term value should be made available. The methods used to share data will be dependent on a number of factors such as the type, size, complexity and sensitivity of data. If possible, mention earlier examples to show a track record of effective data sharing. Consider how people might acknowledge the reuse of your data.

**What resources will you require to deliver your plan?**

acknowledged long-term value should be made available. The methods used to share data will be dependent on a number of factors such as the type, size, complexity and sensitivity of data. If possible, mention earlier examples to show a track record of effective data sharing. Consider how people might acknowledge the reuse of your data.
